WHO WE ARE

Innoceana is a global marine conservation nonprofit dedicated to **preserving the ocean for future generations by empowering and educating coastal communities**, leading collaborative research projects, and harnessing cutting-edge technologies.

Our mission is to **rewild the ocean with innovation and education**. Our experiences offer marine focused expeditions that infuse the love of adventure with a passion for marine conservation.

All the proceeds from our activities go directly to **funding the critical marine conservation and education work** we are carrying out in Costa Rica.

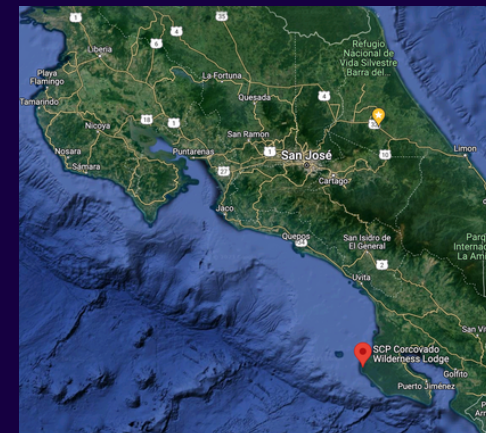

BE MORE THAN A RECREATIONAL TOURIST

Don't be a simple tourist, become a **citizen scientist!**

Join us on any of our experiences and discover the beautiful Osa Peninsula with a purpose. You will participate in marine conservation for a day, get involved in our research projects, and learn more about the underwater world and how to preserve it.

Ideally located between Marino Ballena National Park, the largest Wetlands of Costa Rica, the renowned Corcovado National Park, and the Biological Reserve Caño Island, we aim to protect our local marine ecosystem while making participation in conservation more accessible to all ocean lovers.

Citizen scientists like you are key to saving our oceans. Join us to make a difference for a bluer future.

SNORKELING IN CAÑO ISLAND

\$145.00/person + IVA. Full Day Experience

Includes: a certified instructor, equipment, biological reserve entrance fees, lunch and snacks, and conservation material.

Caño Island is a pristine island in the Pacific Ocean. It hosts the most biodiverse coral reef in the Pacific of Costa Rica, is a nursery for hawksbill turtles, and a home for an incredible number of marine species: sharks, nudibranchs, turtles, octopus, tropical fish, seahorses, etc. Situated right within an important migration route, Caño Island also welcomes numerous species of whales, dolphins, manta rays, bull sharks, hammerhead sharks, whale sharks, the list goes on... A little paradise in the middle of the Pacific Ocean.

You will learn about the marine ecosystem, understand how to preserve it, and help us collect precious data on the quality of water, turtle migration routes, marine invertebrates, coral health and much more. Have a positive impact while enjoying nature's wonders.

Schedule

6:20 AM

Breakfast time.

7:20 AM

Meeting at guide house to try on equipment and receive a brief lecture about our conservation projects.

8:15 AM

Leaving with our comfortable boat and amazing captain towards the Caño Island Biological Reserve.

9:00 AM

Arrival at Caño Island for our first immersion.

11:00 AM

Second immersion at Caño Island.

12:30 PM
